6-7pm

You do not need to revise in all of these slots. Start by filling out commitments you have, add clubs, family events etc. Then fill gaps with your subjects.

If you think you can revise 2 subjects per night (25-30 min each), then pair up your subjects with at least one you like in each pair. If you schedule pairs of subjects more than once in a week, swap the order you do them in, in case you only have time to do one subject in the end.

Don’t forget to add mealtimes and sleeping!
