The Languages team is committed to providing a challenging and enjoyable learning experience for all our students. We believe that learning a language is an essential part of all students' academic and social development, equipping them with the skills to participate in an increasingly global society. Many students have not had exposure to people from other cultures, nor had the luxury of travel abroad. As a result, over time, barriers of language, culture and practices can prevent students making the most of opportunities around the world or indeed within their own community. Learning a language can be the first step to developing more of an understanding of how different peoples live in different countries.

At Farmor's School all students in Key Stage 3 study one language: French or Spanish. Year 6 parents are asked if there is a particular reason to study one language. Although no guarantee can be given, we will try our best to accommodate preferences.
