AN ACADEMY

FARMOR'S SCHOOL PROSPECTUS

INTEGRITY, FELLOWSHIP & ENDEAVOUR

Welcome to Farmor's School

As a parent I want my children, first and foremost, to enjoy school and to do well. I want school to share my aspirations for them, to treat them as individuals and to recognise their talents and interests.

I ask that they are taught well, by teachers who are passionate about their subject, and that they are challenged to achieve their academic potential. I hope they will develop to be responsible, caring and courteous young adults and that the school will support me by insisting on the high standards of behaviour that I expect at home. Is that too much to ask? I think not. I suspect that my expectations are fairly common. You will no doubt add more of your own.

At Farmor's School we recognise that we have a great deal to live up to. We strive to deliver for your children what we would want for our own. Farmor's School offers something unique, which is why some of our students travel a distance to study here from Swindon, Cricklade and villages from miles around.

Founded in 1738, the school has a sense of history and tradition which few comprehensive

schools can lay claim to; this in turn structures our ethos and values. Set in the Cotswold town of Fairford and surrounded by beautiful countryside, the school is a calm and pleasant environment for learning. We are a proudly independent, principled and confident school. However, do not be fooled into thinking that Farmor's School is a sleepy retreat.

The school is equipped with excellent facilities including modern science labs, an emotional & academic wellbeing hub, sports facilities and a new Sixth Form Learning Resource Centre! The thriving arts culture, successful sports teams and outdoor pursuits activities ensure students are engaged in the wider life of the school.

It is this mix of traditional values combined with a forward looking and dynamic outlook that makes Farmor's School a great place to be. We are determined to build

further on what has already been achieved. Our greatest successes lie ahead. If you share our aspirations for your children and want to join with us in making Farmor's School an unrivalled place to work and learn, I welcome you and your child to our school.

Matthew Evans
Headteacher
mevans@farmors.gloucs.sch.uk

Our Heritage

Farmor's School opened as Fairford Free School on 24th November 1738. The school was originally established to educate 50 boys aged between 5 and 12.

The original schoolhouse, which still stands in the town centre, was funded through donations by Mary Barker, daughter of Andrew Barker, Lord of the Manor of Fairford, and his granddaughter Elizabeth Farmor. The school accepted girls for the first time in 1815, although boys and girls were strictly separated.

In 1922, the boys and girls schools were combined under one Headteacher, Herbert Hedges, and the school changed its name to Farmor's Free School. After the Second World War, Farmor's opened its doors to students from Lechlade and surrounding villages. Gloucestershire County

Council built a new school in 1961 on the site occupied by the school today; the new school took the name Farmor's School.

In 1966, Farmor's School became a comprehensive school, open to all regardless of ability, background or wealth. Over the next 50 years the school expanded, both in terms of buildings and student numbers.

Today it educates around 1000 students of age 11 to 19 from as far afield as Swindon, Oxfordshire and Cricklade. Whilst times have changed, the school's original mission to provide a good education to the young people who attend it still stands today. For further information about the school's history, see Fairford History Society's website.

WHEN FIRST OPENED, THE SCHOOL ACCEPTED ONLY 50 BOYS FROM THE TOWN OF FAIRFORD. IN 1815, THE SCHOOL BEGAN TO ACCEPT GIRLS IN A SEPARATE SECTION OF THE SCHOOL.

Curriculum & Learning

As a comprehensive school, we believe that every child is entitled to a broad and challenging education.

We provide a strong academic core curriculum alongside a diverse range of subjects which, as students get older, enable them to pursue their interests and talents.

We value the arts, technology, humanities, languages, sciences and the social sciences equally. This is demonstrated by the free choice of optional subjects we give students at GCSE and A level. This diversity and choice is a strength as students can pursue their interests and goals.

'WELL BEHAVED AS A GROUP AND UNIVERSALLY DELIGHTFUL.'

Guest speaker

Art

The Art department is an integral part of Farmor's school community and represents an exciting, vibrant and creative space for students, staff, parents and visitors alike. Although disciplined and focused in our teaching, the atmosphere within the department is warm and friendly. Our teachers are not only practitioners of their own craft but also experts across a wide variety of different art forms.

Our aim is to create a stimulating environment that inspires intellectual thinking and nurtures artistic skills. Our broad and balanced curriculum enables all students to achieve well and prepares them for future study. Students work on projects both individually and in groups throughout the key stages.

By the end of KS3 students should have knowledge and experience of the formal elements of Art. Students will have an understanding of working in a variety of media, techniques and processes which are further developed at GCSE. Art A level continues to be a popular subject, with many students going on to post 18 courses and artistic careers.

Business

Business Studies is first offered as one of the optional subjects at GCSE level. It is an engaging, relevant subject which provides students with skills and knowledge that will be invaluable to them in their everyday lives and in the world of work. Students are given the opportunity to explore all different aspects of how businesses are run and study a range of topics including marketing, accounting and human resources. Throughout the course students will develop a range of skills including data analysis, team-working and creativity. By making extensive use of case studies, students are taught to apply the theory they learn to real life companies. In the Sixth Form the department also offers A levels in Business Studies and Economics both of which are subjects many students go on to study further at university or through apprenticeships. We also engage with the local business community and host guest speakers who provide the students with valuable insights into how they set up their own businesses.

Computing & IT

In our constantly changing world of technology, we provide a curriculum which delivers both positive learning and a rewarding experience, regardless of students' prior experience.

Our intent is not only to encourage our students to problem solve using a variety of modelling techniques, but to provide them with the capability of becoming creators of technology as well as competent consumers. Students will learn to program, design and create workable solutions as well as networking, digital imaging and movie making.

All Year 7 to 9 students study Computer Science and can pursue this at both GCSE and A level. Year 7 students also study Information Technology to provide necessary knowledge and experience to be successful in their studies.

We also provide a range of enrichment opportunities:

- Bebras Computational Thinking Challenge
- STEM Computing Roadshow
- CyberFirst Girls

Design & Technology

The Design & Technology curriculum is rich and varied; the department specialises in product design in all material areas in KS3 including, electronics, plastics, wood, CAD/CAM and paper & card. A broad design curriculum is valued here at Farmor's and there is the opportunity to progress and study D.T at GCSE and Product design at A level.

Students have the opportunity through a variety of theory, creative and practical activities to engage in an iterative process of problem solving, designing, making and evaluating. They are encouraged to think differently about their ideas and developments in design and technology, it's impact on individuals, society and the environment.

'STUDENTS WERE VERY ENGAGED AND HAVE BEEN A PLEASURE TO TEACH.'

Supply teacher

Drama & Theatre

Drama is a flourishing and popular subject at Farmor's. All KS3 students take part in a weekly Drama lesson and can progress to our GCSE Drama and A level Drama & Theatre courses. Our rich and varied curriculum engages and encourages students to become confident individuals with the key skills they need for a bright and successful future.

The collaborative nature of Drama provides opportunities for students to develop communication, negotiation, compromise and self-assertion skills. Students develop confidence when speaking and their vocabulary is extended when they adopt roles and characters. Our students also acquire critical and subject-specific vocabulary through reflecting on and appraising their own work and that of others. We provide a safe environment for students to explore a rich variety of stimuli, working creatively together and problem-solving in groups of various sizes. These skills, along with flexibility, empathy and risk-taking, are intrinsic to our drama practice. We strive to equip students with a toolkit of transferable skills that are recognised as vital in the workplace and throughout adult life.

English

The English Department at Farmor's is dedicated to ensuring that students become confident and accomplished readers, writers and speakers, regardless of their prior ability. At Key Stage 3 we study a range of texts and themes, offering numerous opportunities for students to develop their vocabularies, cultural capital and creativity.

At Key Stage 4 all students go on to study both English Language and English Literature GCSEs where they have the opportunity to develop their knowledge and skills further, building upon the work they have done at Key Stage 3.

At Key Stage 5 students can choose one of two A levels: English Literature or English Language and Literature, both of which are highly regarded by universities and recognised as 'facilitating subjects.'

Food Science & Nutrition

Taught in our high-spec food room, KS3 students get to enjoy this very practical subject.

We teach them a range of skills and techniques through a variety of recipes, encouraging them to apply these skills to their own cooking at home. In addition, they gain an understanding of nutrition and learn the basics of food hygiene.

At KS4 they have the option to study GCSE Food Preparation and Nutrition, and at KS5 we offer a Level 3 Diploma in Food Science and Nutrition, which is equivalent to an A level.

Geography

At Farmor's School we understand that fieldwork makes Geography come to life and puts everything into context in glorious 3D. At every key stage to give as many fieldwork experiences as possible at various scales - local, regional, national and international.

We inspire curiosity and fascination about the world and its people, that will remain with students for the rest of their lives. We equip students with knowledge about people and places, together with an understanding of the Earth's key physical and human processes. Students are also encouraged to understand their role in society, by considering different viewpoints, values and attitudes.

This is a popular course at both GCSE and A level.

Health & Social Care

At KS4 we offer Health & Social Care as an option choice. Equivalent to a GCSE, the Cambridge National Level 1 & 2 course offers students the chance to develop applied knowledge and practical skills in Health & Social Care. As well as being invaluable for anyone considering a career in the sector, the course also covers some very transferable knowledge and skills, including communicating effectively with individuals, researching, planning and presenting.

'EXCELLENT! I WATCHED THE STUDENTS ARRIVING FOR ASSEMBLY, THEY WERE WELL ORGANISED AND RESPECTFUL OF EACH OTHER. I HAVE ATTENDED SEVERAL ASSEMBLIES THIS WEEK THE STUDENTS WERE AGAIN POLITE AND RESPECTFUL AND ENGAGED. FULL MARKS FROM ME!'

*Visiting Primary School
Headteacher*

History

In Years 7 to 9, we cover a wide range of British, European and World History from the Anglo-Saxons to the 9/11 and 7/7 terrorist attacks in a roughly chronological way. We teach a range of political, social, economic and cultural history and cover many of the key moments in national and world History. We want to pay meaningful attention to the diversity of past societies, represent the lived experiences of different groups, and explore the interconnectedness of British and wider world history.

Students should be able to build up a coherent narrative of the past. With secure knowledge of the past, students are also able to learn about the discipline of history. Students will use their knowledge to engage with valid historical questions and learn how historians make sense of the past.

At GCSE students study the Edexcel curriculum. The units we have chosen are Crime and Punishment through Time; Germany 1919-39;

International Relations 1943-1991; and Anglo-Saxon and Norman England. Students who choose to continue to A level study Communist States – the USSR 1917-91 & East Germany 1949-1990; The British Empire 1763-1914 and also an historical enquiry on any historical controversy that interests them.

We run a range of trips such as Warwick Castle in Y7, WWI Battlefields in Y9 and Berlin in Y11.

Mathematics

At Farmor's we firmly believe that mathematics is for all and we endeavour to stretch all students regardless of their prior achievement. For those who have previously found maths a challenge we have small groups with dedicated TAs whose support allows students to progress at their own rate. All students will build their knowledge of mathematics gradually to achieve a deeper understanding of how the topics of mathematics are linked and are used in the real world.

There are a number of enrichment opportunities including:

- A weekly Mathsteaser contest open to years 7 to 11,
- the UKMT maths challenge papers in years 7 to 10,
- and the UKMT team challenge competitions for students in years 8 and 9, and the senior competition for years 11 to 13.

After their GCSEs a good proportion of the students continue their maths studies choosing either the traditional A levels of Maths and Further Maths, or a significant number study Core Maths which focusses on how maths is applied in the real world including business and the statistics behind the sciences.

Modern Languages

Communicating with others in their own language has always been an invaluable skill. Now more than ever, getting on with others, understanding their culture and being able to articulate one's own needs are vital.

In the MFL department, we help our students become confident communicators who can hold their own in the workplace, in a social setting or travelling for pleasure.

Our aim is to make language learning an enjoyable and rewarding experience. We offer a variety of visits and exchanges to France and Spain to enable our students to practise their knowledge in an authentic context.

'WE WORK IN MANY SCHOOLS AND THE STUDENTS HERE ARE SO POSITIVE AND QUESTIONING, IT'S A PLEASURE TO SUPPORT THIS SCHOOL.'

Social worker

Music

Music has traditionally been strong at Farmor's with many students taking part in a wide range of music making opportunities both in school and in the community.

During KS3 all students take Music in a very progressive curriculum equipping them with the skills and knowledge to continue the subject at GCSE and A level.

They learn basic musical theory, how to read notation and play a keyboard. The music classroom contains the very latest Apple Mac music

technology which means it is inclusive for all students. They learn about a wide range of musical styles from Beethoven and the Beatles to Blues and Reggae.

The department offers a range of extracurricular activities including two choirs, orchestra, jazz band and provides facilities for students to practise with their own bands. Students can also learn to play a musical instrument with many different instrumental lessons on offer. Music at Farmor's is fun and for everyone.

PE & Sport

Students at Farmor's are encouraged to develop an appreciation of the importance of all aspects of Physical Education including: their physical skills and fitness; their cognitive ability through decision making tasks and their emotional approach to activities. We emphasise resilience, approach behaviours and a growth mindset through a rich curriculum.

We are proud of the success we achieve in extra curriculum sport and pride ourselves upon high standards of performance and conduct. We have a strong tradition of house competitions in many sports to encourage participation. Clubs are also offered to all year groups in a vast variety of activities throughout the year and we compete in many local and national competitions in sports ranging from Cross Country to Softball.

Photography

Photography plays an important role in all key stages at Farmor's and is based within the Art department. At KS3 pupils will take photographs to use alongside their projects and then at KS4 it is offered as an option choice. The GCSE engages pupils to learn the full use of a digital camera and builds upon camera skills and techniques through a wide range of mini topics. Students learn the history of Photography, analyse the work of others and learn a wide variety of new skills. We offer an educational day trip alongside

their studies and there is plenty of outdoor practical work as well as studio based photography. At KS5 Photography is explored in more depth and camera skills are further enhanced. The A level includes a fantastic trip to a professional photography studio in London, where students are able to work alongside a team of photographers and their extensive equipment. This visual subject really explores a wide range of skills and is an all-round enjoyable experience.

Religious Studies

Religious studies at Farmor's School helps students to understand the complex multi-faith and multicultural world in which they live. It allows them the opportunity to explore the beliefs of the main faith systems and consider how such beliefs help people to make sense of the world and of their own lives. Students engage with challenging questions about the ultimate meaning and purpose of life, issues of right and wrong and what it means to be human. It helps enable them to discern what is of value within and outside religious traditions and contribute to their own personal development.

Science

Our Science curriculum is designed to be stimulating and accessible to all. It aims to capture the enthusiasm and curiosity of students, motivating them to study Science further. Our lessons provide students with many opportunities to explore Science through a range of activities that allow them to continually develop key practical skills that will support their journey from Year 7 right through to A level. Our GCSE Combined Science or Separate GCSE Biology, Chemistry and Physics courses are all suitable for students wanting to study Science further at A level. Here at Farmor's students will encounter new knowledge, methods, processes and uses of Science and learn to appreciate how these affect the world around them. Students are also offered a variety of trips through the Science department, for example, the Year 8 Big Bang Trip and the Year 12 Physics Trip to CERN.

Sociology & Psychology

Sociology is available at GCSE and at A level. Psychology is available at A level. Taking either or both of these subjects can develop valuable skills such as analysis of evidence, reasoning and evaluation.

In Sociology students develop a critical approach to understanding social behaviour of small groups and wider societies. The main focus is on how culture and living arrangements can influence individual behaviour.

Psychology is another fascinating and popular area of study at A level; students develop an understanding of human behaviour and the mental processes explaining how people think, act and feel.

Textiles

Textiles is based within the Art department and plays an important role in all key stages at Farmor's. A highly creative subject, Textiles allows student to explore design through a series of practical projects using a wide range of materials and fabrics. Textiles is also a popular GCSE and A level subject where individual creativity can flourish.

Unit Award Scheme

The Unit Award Scheme has been offered by the AQA exam board as a way of recording student achievement in completing units of study tailored to their individual learning needs. It has proved successful in enabling students to move on to further study, training, employment, and independent living.

Although this is not a qualification as such, UAS has proved to motivate, encourage, engage, support and raise self-esteem and can reward achievement which might otherwise go unrecognised.

Eco Club

In response to the growing concerns regarding the environment by students and staff alike, Farmor's School SSLT (Shadow Student Leadership Team) have established an Eco Club for students right from Y7 all the way to Y13. The club aims to improve the school's existing environmental policies, provide more in depth curriculum links to the environment, and represent the Farmor's School response to the current Climate Crisis.

Learning Support

SEND (Special Educational Needs and Disability) is a whole school approach including high quality teaching and additional interventions. Teachers closely monitor progress, development and attainment of all pupils with SEND including where pupils access support from teaching assistants or any other specialist staff. The identification of SEND is built into the whole school approach to assessment. Specific enquiries regarding SEND should be directed to our SENCO (Marius Dan).

Careers

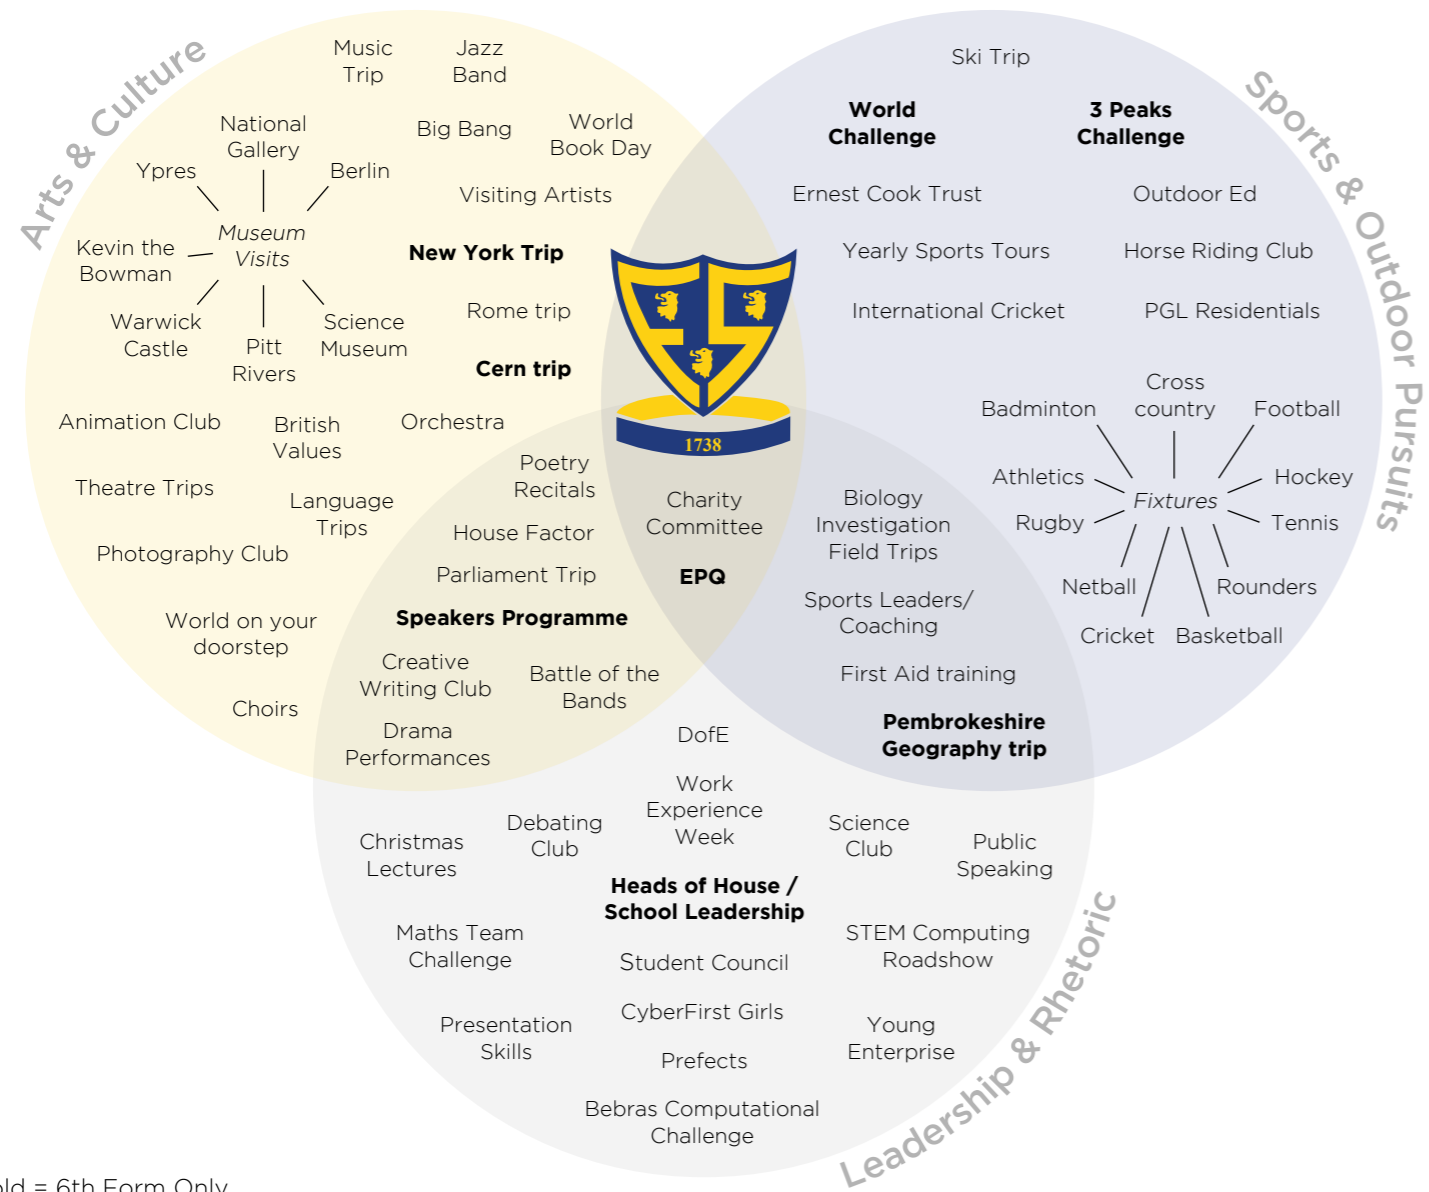

Careers is a thread which runs through the whole school. Our Careers Lead is available for individual careers interviews in addition to the taught programme of sessions. Work experience in Year 10 is a valuable week for testing interests and introducing the work place. As students keep the same Head of Year and tutor through Year 7 to 11, pastoral staff are well-placed to know students well and support them with their ambitions.

Wellbeing support

We know that sometimes, some children need a little more support. This can be for all sorts of reasons: personal wellbeing, family trauma/ bereavement, poor health or undiagnosed needs. We have three counsellors on site providing confidential support and our school nurse provides a weekly drop in. Should a student's needs be more acute the pastoral team has a network of contacts in external agencies for more formal support. We have established a new flexible provision that offers a safe, secure space for children who have been referred by their Head of Year. This is coordinated by our Centre Manager and overseen by the Designated Safeguarding Lead. It also provides a quiet space for children to use at break and lunchtimes.

More than Study

Bold = 6th Form Only

Duke of Edinburgh (DofE)

The DofE award gives you the chance to do something completely new and improve on things you're already doing. It takes you out of your comfort zone into a place where you'll push yourself and have amazing new experiences.

You'll build confidence, resilience and skills for work. And you'll have a brilliant time doing it.

Looking forward, the DofE can help you to carve out a better future. Colleges, universities and employers regard a DofE Award highly so it will help to open the right doors for you.

To complete your award you will need to do one activity for each of the Skills, Volunteering and Physical sections, plus an expedition, and the Gold Awards includes an additional residential.

Many of you will already be doing something currently to fill these sections and there are many different options that you can choose from.

We offer Bronze, Silver and Gold levels of the award here at Farmor's School, starting in year 9 through to 6th form.

International Links

Here at Farmor's we are proud of our international dynamic. Each year we run successful trips to many destinations in Europe and beyond. Over the last two years our foreign trip offer has included Geography trips to Iceland and Croatia, a cultural tour of New York, a sports tour to South Africa, World Challenge to Kenya and a KS5 educational visit to Auschwitz.

Regular yearly trips include the KS5 trip to Cern, Year 11 Berlin History, Year 10 PGL sports week in France, Year 9 Belgian Battlefields plus a Year 8 cultural tour of Rome. The ever-popular February Italy ski trip is open to all year groups.

Specific languages trips in years 9 and 10 to Spain and France involve spending a week in each country learning about their ways of life and experiencing their differences in schooling. Culture is an important part of our language teaching and we aim to include cultural elements as often as possible, be that with music, food or trips abroad.

Enrichment

External trips and activities provide learning opportunities that we can't offer on-site, such as outdoor pursuits, group residentials, field-work and museum and cultural experiences. These events give children excellent opportunities to develop, extend and succeed in a way they may not in the classroom.

Whether this is through team-building activities, developing stronger peer relationships, or pushing their perceived physical and mental boundaries, the students grow in confidence before our eyes. At Farmor's we nurture an ethos of learning both in and out of the classroom; these co-curricular experiences that create life-long memories are as important as the learning in examined subjects.

Charity Committee

We support a number of different charities within school ranging from small local charities to larger national charities like Help for Heroes. Any pupil can suggest a charitable activity within school with support from the Charity Committee. The Charity Committee is run by Sixth Form students. Previous activities have included bag packing, sponsored cycles, bake sales and non uniform days.

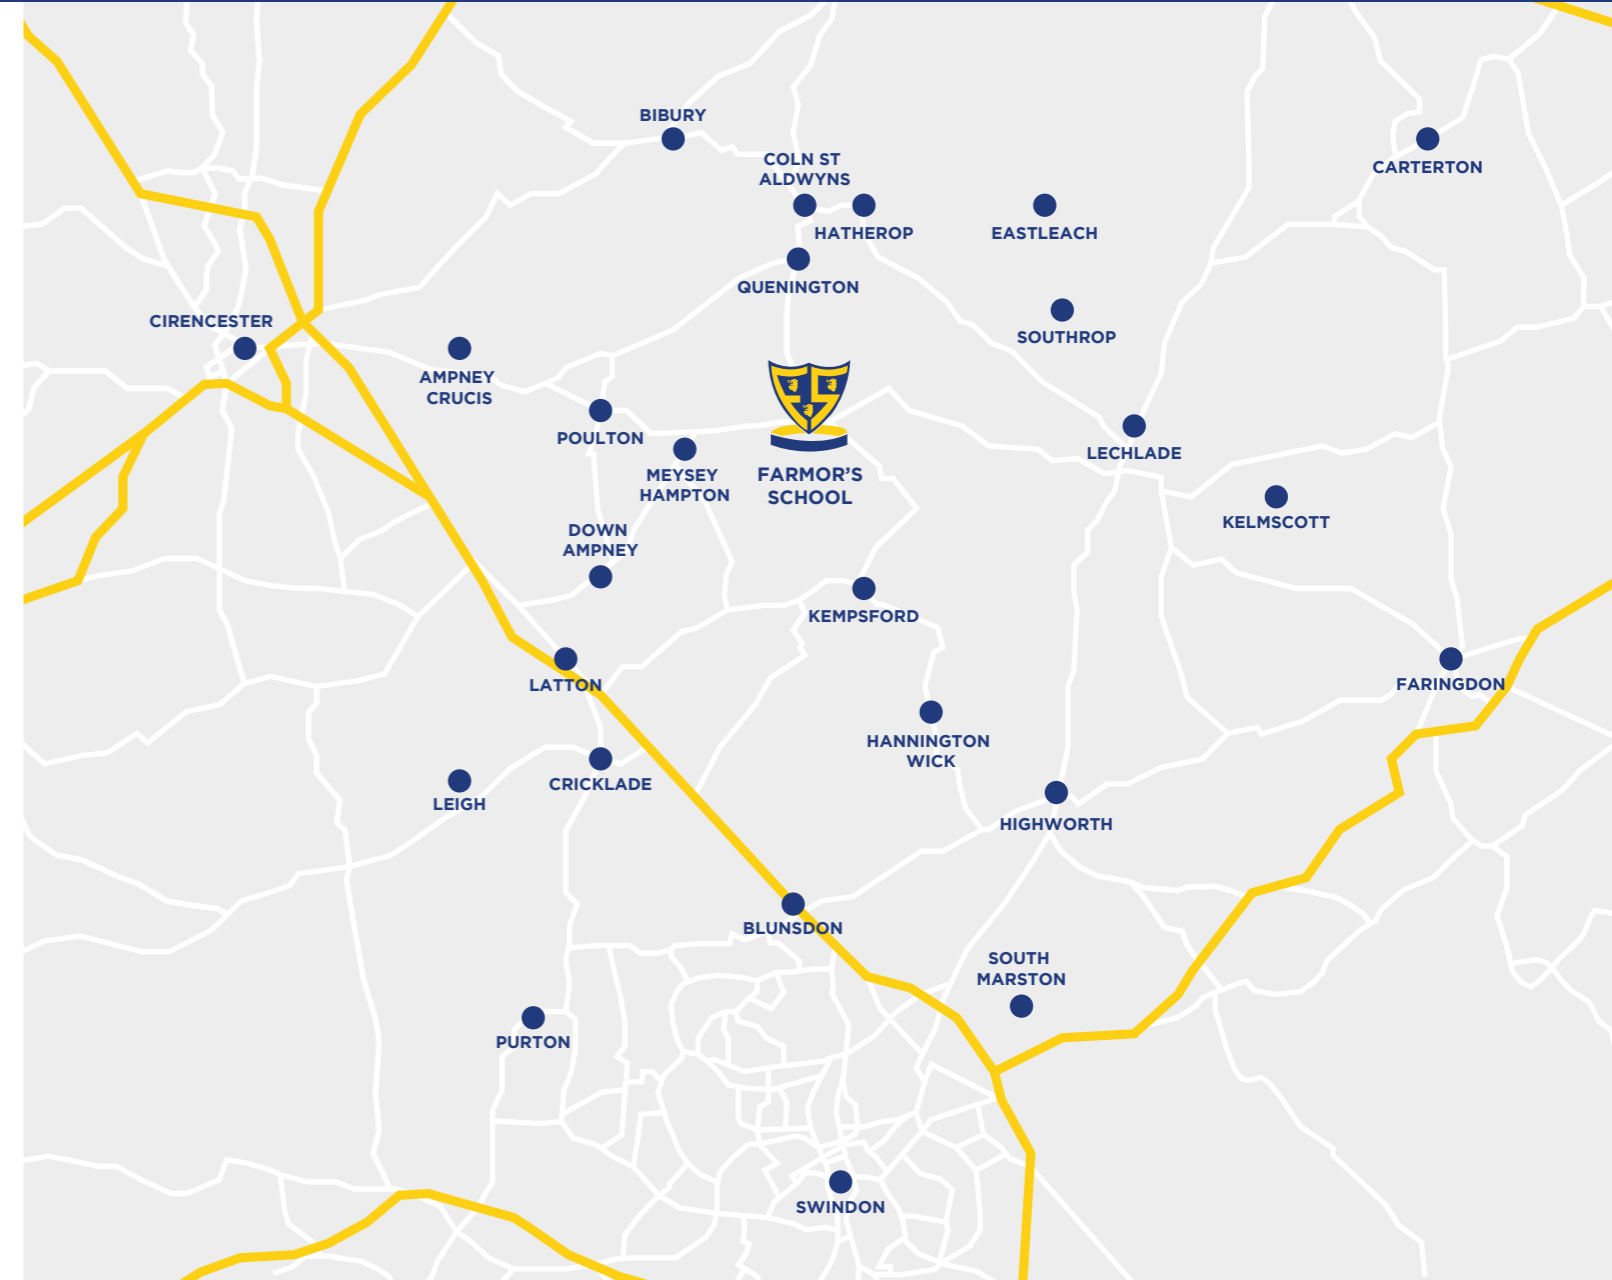

'THE SCHOOL WAS VERY WELCOMING, STAFF VERY ACCOMMODATING. LUNCH AND REFRESHMENTS WERE LOVELY. THE STUDENTS IN OUR CLASS WERE REALLY ATTENTIVE AND SEEMED TO BE ENGAGED AND ENJOYING THE SESSION.'

Location

Farmor's School offers something unique, which is why some of our students travel a distance to study here from Swindon, Cricklade, Highworth and villages from miles around. Set in the Cotswold town of Fairford and surrounded by beautiful countryside the school is a calm and pleasant environment for learning. We are a proudly independent, principled and confident school.

However, do not be fooled into thinking that Farmor's School is a sleepy retreat. The school is equipped with excellent facilities including modern science labs, an emotional & academic wellbeing centre, sports facilities and a Sixth Form Learning Resource Centre.

The thriving arts culture, successful sports teams and outdoor pursuits activities ensure students are engaged in the wider life of the school.

Enrichment

There is no doubt that A levels are important, but employers, universities and colleges are looking for well-rounded, confident and skilled individuals. They are looking beyond grades on a certificate to select their candidates. With the rapidly changing world, we are preparing you for careers and opportunities that may not yet exist. What is equally important to us therefore, is the range of opportunities that we offer you to develop your portfolio of skills and build confidence to view new challenges positively.

We encourage all of you to make the most of these opportunities.

Aspire Programme

If you are aspiring to apply to Oxford, Cambridge or for a Medicine course you are welcome to join our Aspire Programme. There is a range of trips and speakers as well as support with the preparation of the application including reading seminars and tutorials. You will be offered an interview which is filmed for you to keep and review later. This is a highly successful and valued programme tailored to the needs of each individual.

‘CLEAN, FRIENDLY AND WELCOMING, A VERY ENJOYABLE DAY.’

Sixth Form Open Evening

SIXTH FORM

We extend a warm welcome to all students who come to study with us from Gloucestershire, Wiltshire and beyond. See our website for more details.

Personalised advice, guidance and pastoral support is available to all students. This unrivalled support includes the Aspire Programme for Oxbridge and Medicine students and we are successful in supporting students onto these paths every year.

Independence is vitally important as you prepare for the next steps of your life after A levels.

Therefore, we will treat you as an adult from day one, responsible for your choices from how you dress to the targets you set yourself. We have a unique balance of freedom and academic rigour, of independence and support, of routine and choice.

This, coupled with the breadth of our offer of both A levels and Enrichment Programmes, attracts students from many different schools. New entrants make up over 20% of the cohort each year.

Excellence. We are one of the top performing Sixth Forms, not only in Gloucestershire, but in the country. In fact, in our student survey this year 100% of respondents rated the Sixth Form as good.

Outstanding purpose-built facilities complement the quality of A level teaching that you will enjoy. Our staff regularly 'go the extra mile' with one-to-one tutorials and mentoring to ensure students reach their potential.
