April 2024

KS4 Design and Technology Department

Dear Parents/Guardians,

In year 10 your child will complete a variety of Design and Technology projects relevant to their specialism. These will include design and make investigations using a variety of materials to allow students to develop their ideas effectively and maintain high quality experimental outcomes in a variety of practical techniques.

To cover the rising costs of materials and components used in each year group we would like to ask for a voluntary contribution of £10 to help contribute towards resources for the rest of this academic year. Without such contributions, the range and scope of project work possible can be greatly reduced.

In Year 10 this would contribute towards the use of materials and components.

Voluntary contribution amounts are set up and available through parent pay.

Thank you for your ongoing support.

Yours sincerely

Ms Mindy Smith

Head of Design and Technology
