

“You can travel the seas, poles and deserts and see nothing. To really understand the world, you need to get under the skin of the people and places. In other words, learn about geography. I can’t imagine a subject more relevant in schools. We’d all be lost without it.” Michael Palin

Subject Head: Hannah Moore **Contact:** hmoore@farmors.gloucs.sch.uk

Geography at Farmor's is all about inspiring our students to be curious about the world around us. It is about the understanding of the Human and Physical elements of the world and learning about the cultures that make up our incredible planet. We do this through a varied curriculum, fieldwork and trips and passionate and engaging teaching. We pride ourselves on our love of our subject and hope that this encourages our students to take a keen interest in Geography both in school and in their everyday lives.

We aim to equip our students with knowledge about diverse places, people, resources and natural and human environments, together with a deep understanding of the Earth's key physical and human processes. As our students progress, their growing knowledge about the world should help them to deepen their understanding of the interaction between physical and human processes, and of the formation and use of landscapes and environments. Geographical knowledge, understanding and skills provide the framework and approaches that explain how the Earth's features at different scales are shaped, interconnected and change over time'.

Farmor's School Geography Department

	Term 1	Term 2	Term 3	Term 4	Term 5	Term 6
Year 7 Fieldwork: Rivers and settlement	What is Geography?	Resources	Economy	Weather	Rivers	River enquiry
Year 8 Fieldwork: Living Rainforest	Development	Population	Climate Change	Coasts	Asia	Russia
Year 9 Fieldwork: Fairford	Tectonics	Africa	Glaciers	Middle East	GCSE Climate Change	Brazil

	Term 1	Term 2	Term 3	Term 4	Term 5	Term 6
