23rd September 2022

Dear Parent/Guardian

I am writing to inform you of upcoming events in our careers offer for students in Y10 and Y11.

We have a careers advisor in school every Monday who will be giving presentations to year groups as well as offering individual careers interviews. Students should see their Head of Year or Tutor to request an interview.

Thursday 6th October – Sixth Form Open Evening 4.30-6.30pm. Farmor's School will be open for talks about our Sixth Form offer and for students to discuss all the different course options with subject staff.

Tuesday 11th October - Careers Convention 6-8pm at Cirencester Deer Park School

We have joined with Cirencester Deer Park School this year, rather than duplicating the event here as in previous years. This means that our students can benefit from talking to the many different organisations that are attending the Convention, including a variety of companies, colleges and universities. The wealth of information that will be available will benefit students in Y10 with their Work Experience options as well as supporting Y11 students in thinking about their post-16 destinations. There will be many people on hand to answer questions, including our own Sixth Form Team. Talking to the universities present will allow students to gain an idea of entry requirements and the vast number of courses available.

Parents are asked to park at the back of the school and there will be marshals on hand to direct you. Stalls will be spread across main hall, sportshall, gym, atrium and library. As you come in you will get a leaflet telling you where everything is as well as a map!

To give you an idea of the areas covered and the companies coming please see overleaf.

We hope you will want to make the most of these opportunities to support the important decisions students have to make in the coming months.

Best wishes,

Emma White
Deputy Head

Business Sector	ORGANISATION
Agriculture, Engineering	Lister Wilder, Tallis Amos Group, T H White
Apprenticeships	Project ASK
Architecture	A'Bear and Ball Architects, Millar Howard Workshops
Aviation Systems	CAE Aviation
