Dear Parent/Guardian,

Your child may have mentioned to you the Maths revision workbooks that we have available in school. They are new revision workbooks aimed at targeted grades and last year students found them useful. We have bought in enough for every student to have their own workbook targeting the grades that look appropriate following their mock results.

The books are £3.95 (reduced from £5.99).

Our plan is to use it in school initially, and then students can bring them home later on to use at home for revision as the exams approach. It would be very useful for every student to have one of their own to write in, however if you would prefer not to buy one, your child will have access to a book in school but will not be able to write in it or bring it home.

If you require financial support to purchase one, please let me know and I will investigate whether there is support available to help you.

This item should now be available to pay for on ParentPay and we would be really grateful if you could pay by **Friday 30 January**, so we can start using the books in lessons. If your child finishes the workbook we initially allocate them, they will be able to purchase the next level up if they wish.

Best wishes

Alison Lines
